

The New Pattern for Success

Living System Life and Work

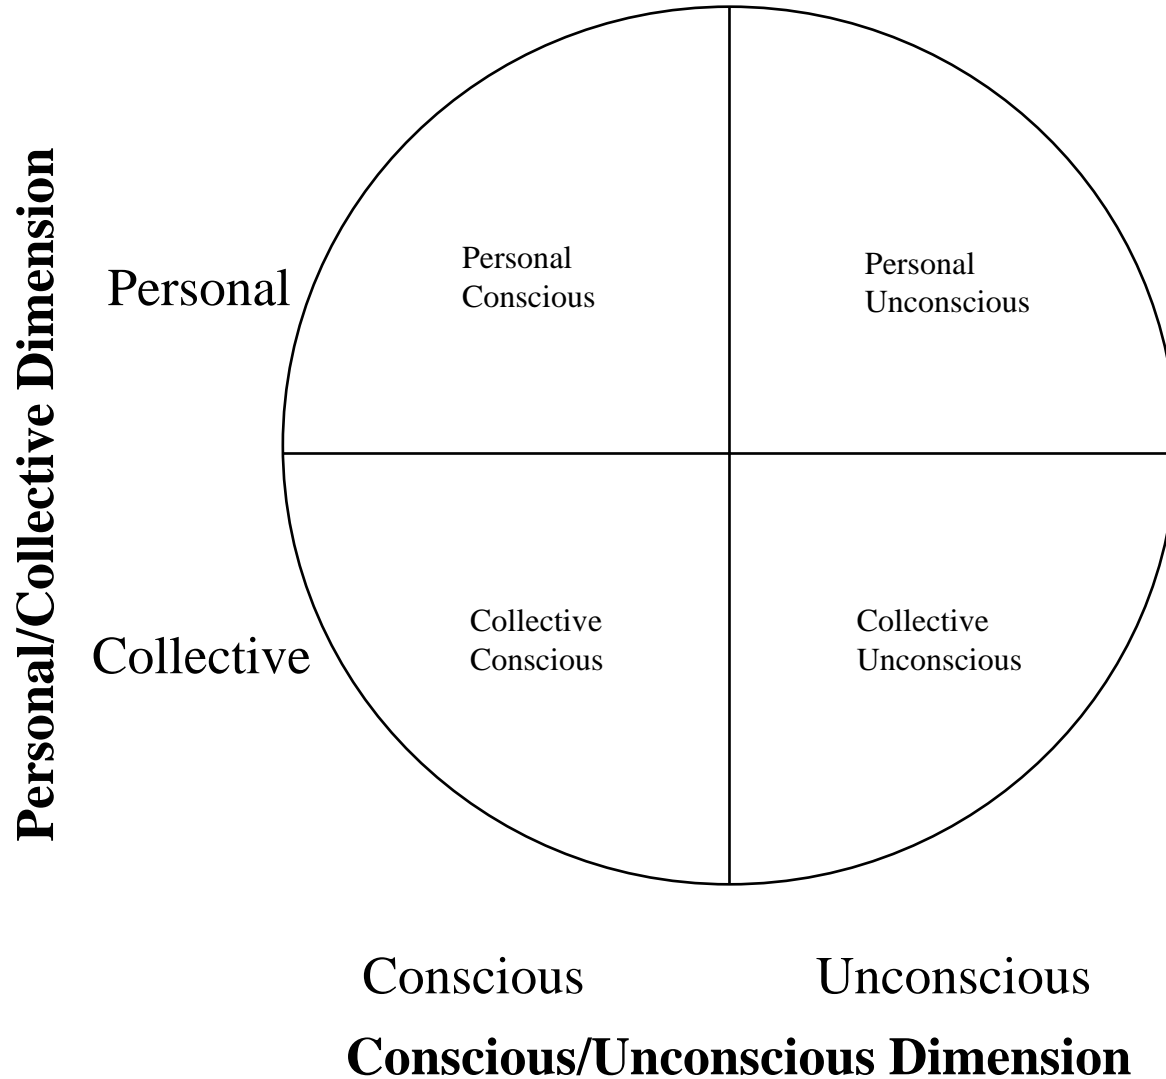

Part 2

Mega-Force 1

The human transformation
to living system life and business

Introduction to Living System Psychology

Individual Human Psyche System Structure

Human Psyche System Terminology

<u>Phase</u>	<u>Cycle</u>	<u>Stage</u>	<u>Psyche Stage Pattern Name</u>
I	1	A	Primitive, Hunter Gatherer (Infancy)
I	1	B	Mystical, Tribal (Early Childhood)
I	2	C	Heroic, Early Imperial (Childhood)
I	2	D	Absolutistic, Medieval (Adolescence)
I	3	E	Linear System , 1st Renaissance (Early Adult)
I	3	F	Relativistic, Socialistic (Mid to Later Adult)
II	-	A'	Living System, <i>2nd Renaissance</i> (Later Adult)

Diagram of Human Psyche System Stages

Mankind's First Phase of Existence

Cycle 1

Stage A - Primitive, Hunter Gatherer

Stage B - Mystical, Tribal

Cycle 2

Stage C - Heroic, Early Imperial

Stage D - Absolutistic, Medieval

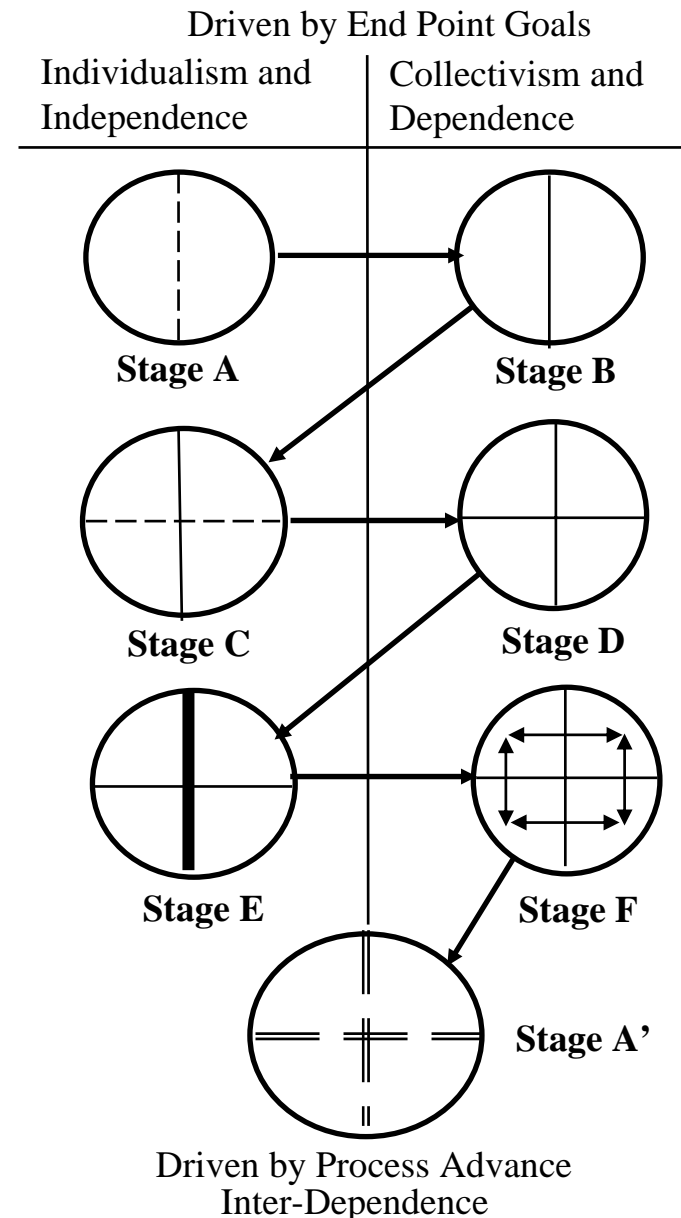

Cycle 3

Stage E - Linear System, 1st Renaissance

Stage F - Relativistic, Socialistic

Mankind's Second Phase of Existence

Stage A' – Living System, 2nd Renaissance

Human Psyche System Terminology

Phase 1 Life and It s Stages

**Cycle 1 – Primitive Man –
Man Emerges and Stabilizes his Existence**

Stage A - Primitive, Hunter Gatherer

to ~30,000 BC

Infancy

Stage B - Mystical, Tribal

~20,000 to ~8000 BC

Early Childhood

Cycle 2 – Ancient and Medieval Man –

Man Begins Being an Individual, Goes to Excess, Becomes Absolutistic

Stage C - Heroic, Early Imperial

~5000 BC to 500 AD

Childhood

Stage D - Absolutistic, Medieval

~1500 BC to 1400 AD

Adolescence

Cycle 3 – Modern Man –

Man Becomes Independent, Goes to Excess, Becomes Relativistic

Stage E - Linear System , 1st Renaissance

1400 AD to Today

Early Adult

Stage F - Relativistic, Socialistic

1850 AD to Today

Mid-Late Adult

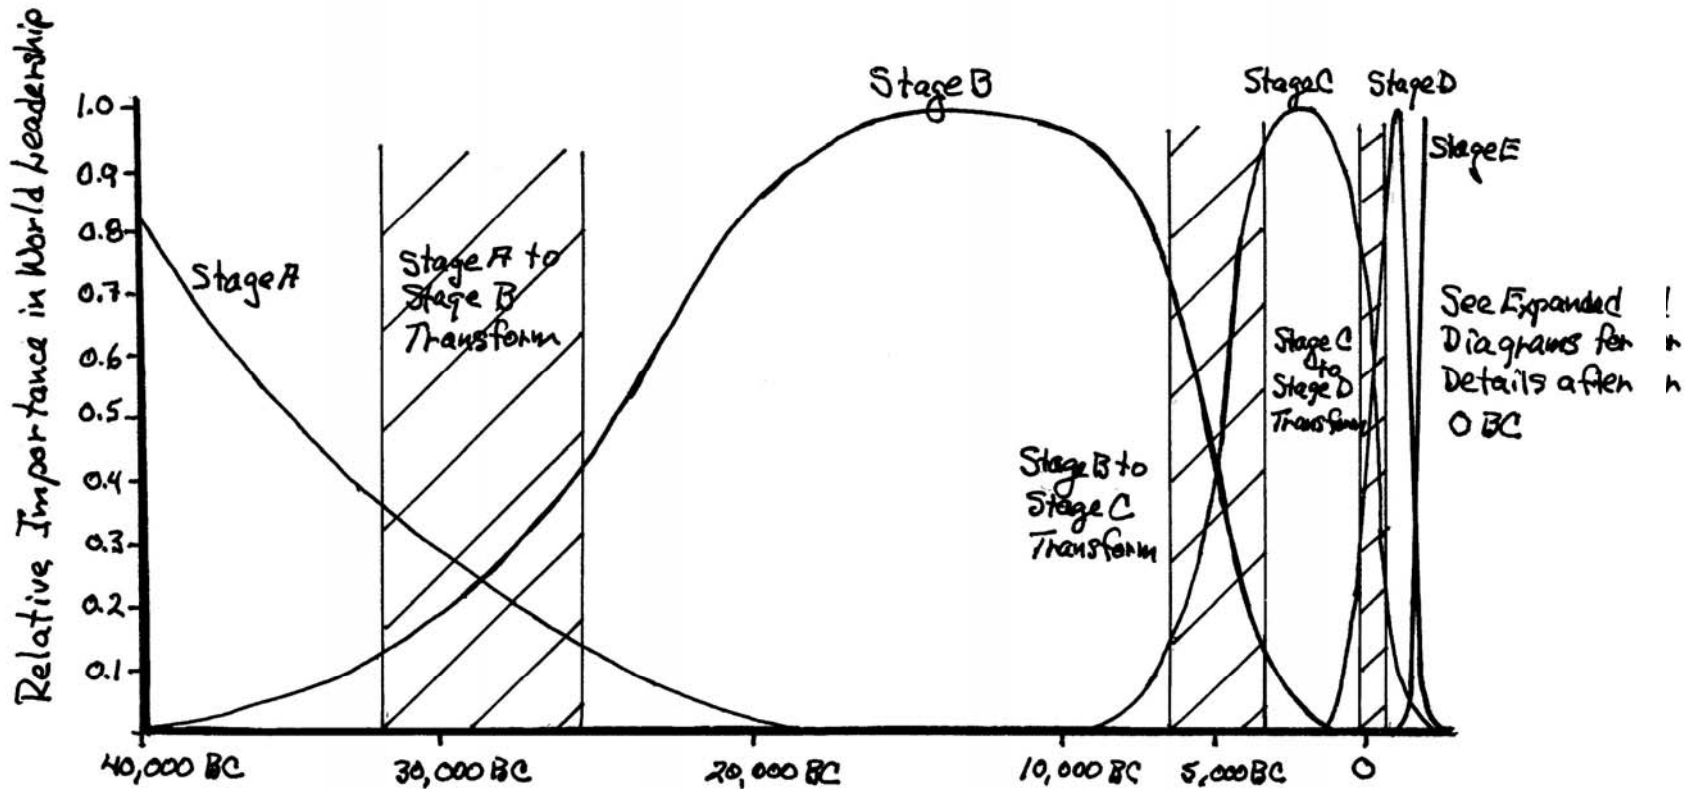

Phase 2 Life and It s Initial Stage

Stage A' - Living System, *2nd Renaissance*

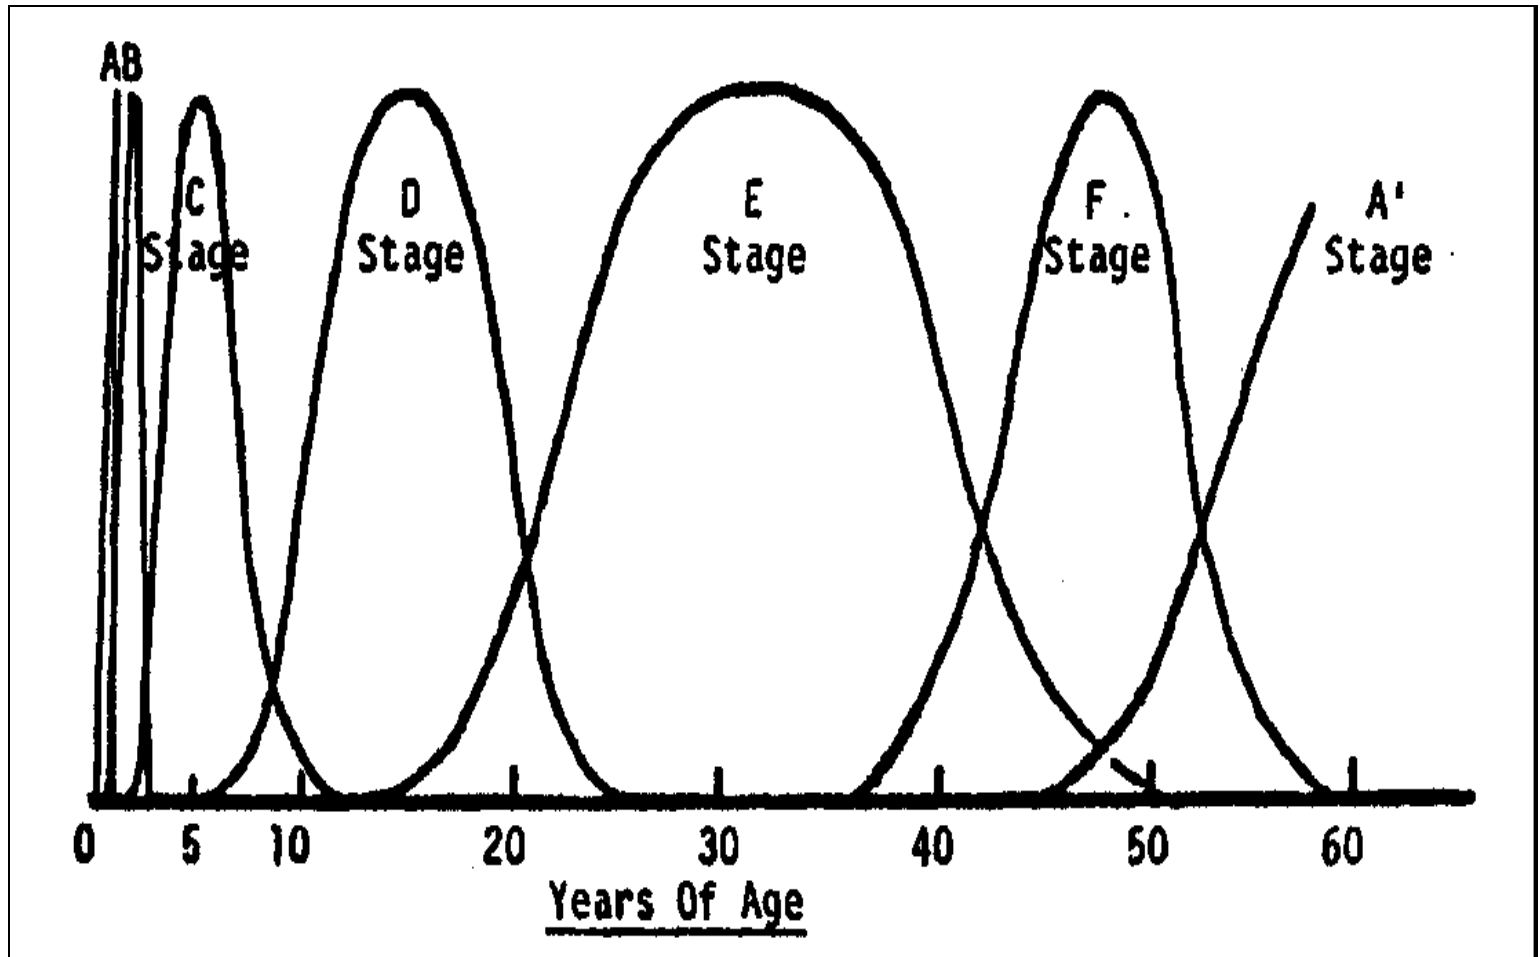

~1900 – Still Emerging

Later Adult

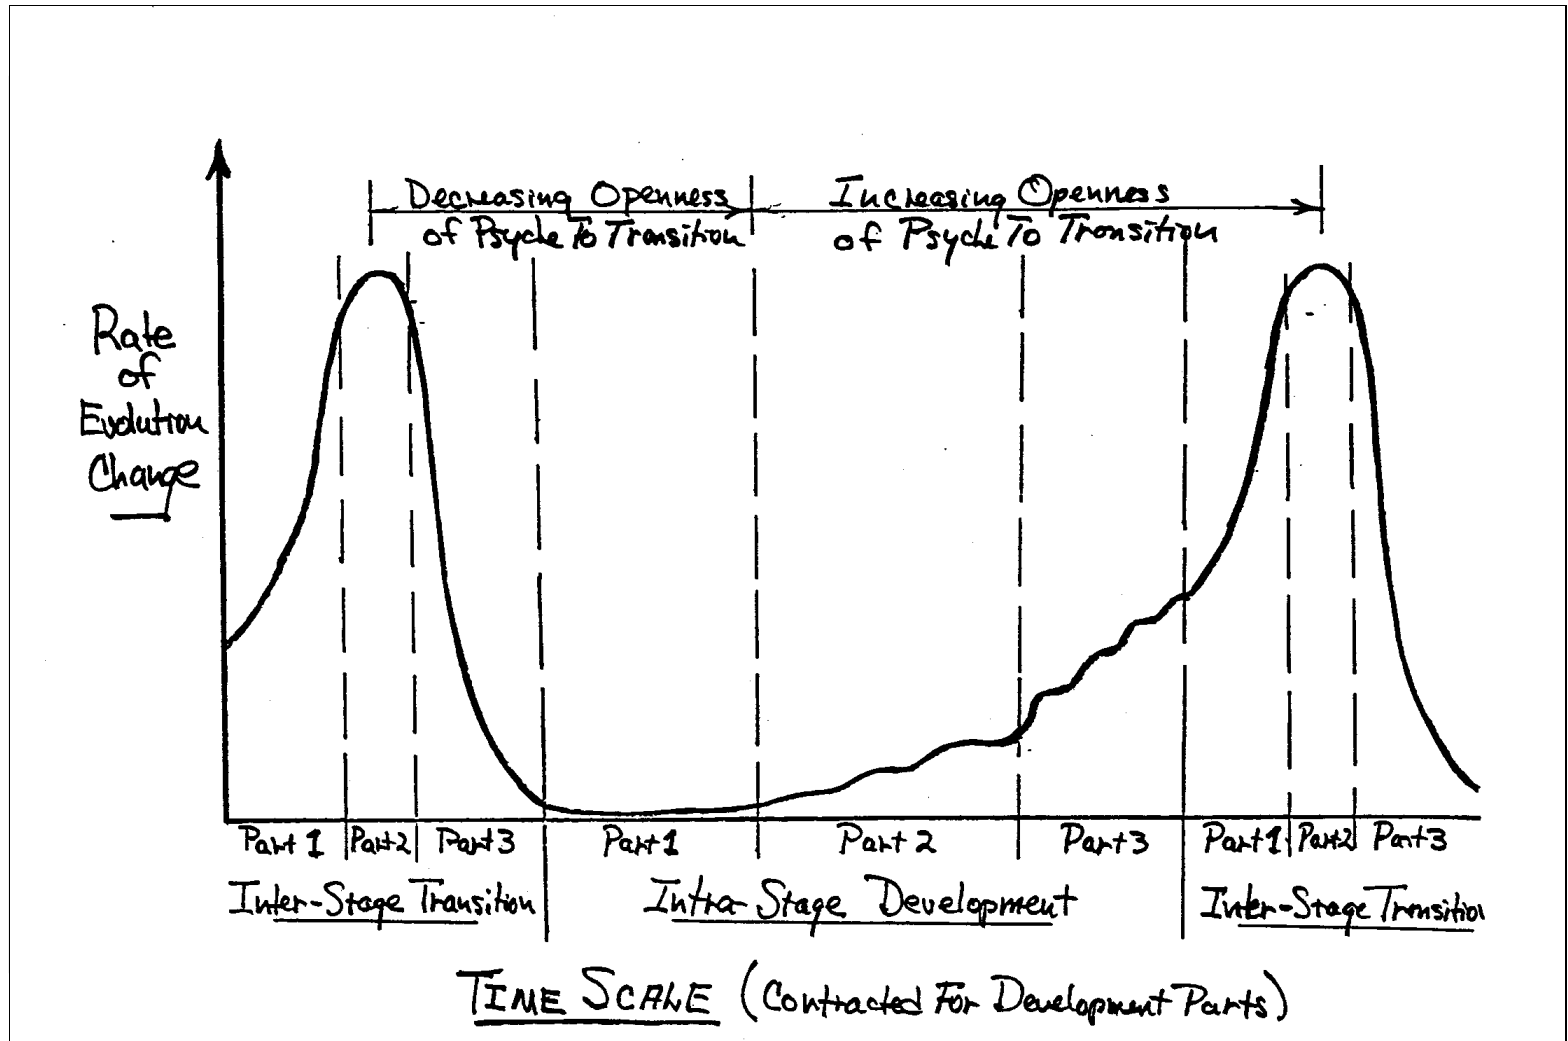

Human Psyche Stage World Leadership and Transformation Eras

Individual Psyche Stage Evolution Through Life

Inter-Stage Transition & Intra-Stage Development

Two Paths of Human Psyche System Evolution

- **Two Parallel Paths In The Psyche's Evolution Story.**
 - Evolution of the Individual - Ontogeny
 - Evolution of the Species (Collective) - Phylogeny.

- **Classical Biological Principle.**
 - Ontogeny Recapitulates Phylogeny
 - Individual Evolution Recapitulates Collective Evolution

- **Extended Principle For Human Psyche System Evolution.**
 - Individual Recapitulates Collective Up to Its Most Evolved Stage.
 - Individual Evolution Then Transcends Collective Evolution To Catalyze and Lead Collective Evolution to Its Next Stage
 - Individual Transcendence Is “Morphogenic” for (Gives Form To) the Collective's Next Stage – That Did Not Previously Exist

- **Transcendence is Happening in Today's World Transformation**

The Human Psyche System – World’s Most Fundamental Living System

**Psyche Phase, Cycle and Stage Patterns
Are
The Underlying “Morphic Fields”
For
Human Life and Affairs**

***All That Happens Are Results of Psyche Patterns
They Are the Real Causes of Events
In Our Lives and Work***
